# Sprint Backlog

For this sprint, we still focused on the project set-up, We redesigned the framework and function of our project, and are learning some new tools. So we can't finish any user stories for now until the framework is finished.

User Story	Task Name
NONE	Market Research
	Establishment of techniques and tools
	Define specific feature details
	API Research
	Design of project Backlog & User Stories
	Design Project Acceptance Criteria
	Designing Project Test Cases
	Designing MVP prototypes and sketches
